Indian					
Challenger	N23LC	Mar '23	Mar '31	X	
Homologation Period Validity	8	years			

***Phase 1:** Requires submission of all homologation drawings (2D/3D), documents, pictures, sample parts, and production quantities. The FIM CTI Homologation Coordinators or MotoAmerica Technical Director must inspect the documents to confirm their validity. The National series can use this basic Phase 1 homologation to check conformity.

****Phase 2:** Has requirements specific to different series. You can find the requirements that must be completed to be eligible for the FIM World Championships hereunder:

About the FIM North America (FIMNA) (fim-northamerica.com)

FIM North America, founded in 1998, is one of six Continental Unions (CONUs) recognized as geographical subdivisions and accountable to the Federation Internationale De Motocyclisme (FIM). The national federations that are members of FIMNA are the American Motorcyclist Association, Canadian Motorcycle Association, and Barbados Motorsports Federation, by their geographical area and membership in the FIM. The roles, duties, and rights of FIMNA are regularly determined by the FIM General Assembly and set out in the by-laws or in the role documents established by the FIM Board of Directors. The FIM North America President is an ex officio voting member of the FIM Board of Directors. FIM North America establishes an annual calendar of Continental Championship events and other activities and declares champions in designated disciplines and classes. Its member federations issue CONU licenses to riders participating in FIMNA and Continental Championship events organized in other CONUs.
